There will be pre test/post-test by the moderators for formative assessment in teaching activity whenever possible. It is expected that for case presentations, Journal club, group discussion & grand rounds, concerned unit SRs guide the students the actively. To be eligible for PG examination each student has to submit thesis at least 6 months prior to exams, present a paper or poster in a conference and submit a paper for publication. Hence, all are advised to prepare a time line for each activity and seek guidance from your teachers and SRs

In case of holiday or some other activity (e.g. examination, guest lecture etc) due to which any teaching-learning activity is not held as scheduled, the same shall be automatically planned for next working day. In case of any exigencies in present times, it is desirable that teaching activity is not cancelled and some other student presents his/her seminar. If a PG teacher is not available, senior consultant shall moderate the activity. Absence from the classes shall not be permitted except for the genuine reasons and after due information. Since we have special clinics, postings in these clinics shall be by rotation and shall be announced soon.
